Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js, Responsive Design
Backend / API: Node.js, Express.js, MongoDB, RESTful API Development, Firebase Authentication, Third-Party API Integration
UI & Performance : Pixel-perfect UI implementation, Cross-browser compatibility, Frontend performance optimization, Reusable component-based architecture
Deployment & Tools: Git, GitHub, Vercel, Netlify, Performance Optimization, SEO Best Practices
Soft Skills: Teamwork, Problem-Solving, Time Management, Communication

PROJECTS

1. **Digital Life Lessons** Live Link | **Client Repo** | **Server Repo**
    - Digital Life Lessons helps people use this website in their daily life by capturing real experiences, challenges, and realizations, then turning them into structured lessons that others can read, learn from, and apply in their own lives.
    - The platform includes powerful functionalities such as **search, filter, sort, and pagination**, along with **like, comment, share, report**, and **add to favorite** options—making it easy for users to discover, interact with, and save valuable lessons.
    - The website supports **two main roles (User & Admin)**. Users are divided into **Free and Premium** plans, where premium access is unlocked through **Stripe payment integration**, while admins manage users, content moderation, and platform-wide analytics.
    - **Technologies: React, Vite, Tailwind CSS, DaisyUI, Framer Motion, TanStack Query, Node.js, Express.js, MongoDB, Firebase, Stripe Payments, REST APIs.**

2. **Fureverly - PetCare community-driven platform** Live Link | **GitHub Repo**
    - Built a full-stack MERN platform connecting pet owners, breeders, and shops to list pets and sell products.
    - Users can **order pets, pet care products, and food**.
    - Order information can be **downloaded as a PDF** with a single click.
    - **Technologies: React.js, TailwindCSS, Node.js, Express.js, MongoDB, Firebase, and Framer Motion.**

3. **Hero IO – Modern App Discovery Platform** Live Link | **GitHub Repo**
    - Built a clean, responsive platform for discovering trending apps, searching by name, viewing app details, and managing installed apps.
    - Installed apps can be managed (view, uninstall, sort) using **Local Storage** for persistent data.
    - Features include trending apps, fast search & filtering, app ratings, download counts, and an install button.
    - **Technologies: React.js**, **Tailwind CSS**, **Axios**, **Recharts**
